Contents

VOLUME 33, NUMBER 1, JANUARY 1994

R. G. Sheath, A. Whittick and K. M. Cole. *Rhododraparnaldia oregonica*, a new freshwater red algal genus and species intermediate between the Acrochaetiales and the Batrachospermales 1–7

Y. M. Chamberlain and R. E. Norris. *Pneophyllum amplexifrons* (Harvey) comb. nov., a mastophoroid crustose coralline red algal epiphyte from Natal, South Africa 8–18

M. Cormaci and G. Furnari. *Halosia elisae* gen. et sp. nov. (Ceramiaceae, Rhodophyta) from the Mediterranean Sea and Halosieae trib. nov. 19–23

J. Larsen. Unarmoured dinoflagellates from Australian waters I. The genus *Gymnodinium* (Gymnodiniales, Dinophyceae) 24–33

K. W. Nam and Y. Saito. A re-examination of *Laurencia hybrida* (Ceramiales, Rhodophyta) from the British Isles: vegetative and reproductive morphology 34–41

D. F. Kapraun and M. N. Nguyen. Karyology, nuclear DNA quantification and nucleus-cytoplasmic domain variations in some multinucleate green algae (Siphonocladales, Chlorophyta) 42–52

M. Kawachi and I. Inouye. Ca^{2+}-mediated induction of the coiling of the haptonema in *Chrysochromulina hirta* (Prymnesiophyta = Haptophyta) 53–57

H. Nozaki. Unequal flagellar formation in *Volvox* (Volvocaceae, Chlorophyta) (Research Note) 58–61

O. P. Mairh and A. Tewari. Studies on a new asexual propagule of *Kappaphycus striatum* (Solieriaceae, Rhodophyta) (Research Note) 62–64

Book review 65

In memoriam 66

Erratum 66

Announcement 66

Published 6 January 1994

VOLUME 33, NUMBER 2, MARCH 1994

J. Kristiansen and M. S. Vigna. Tubular scales in *Synura* and the possible origin of bristles in *Mallomonas* (Synurophyceae) 67–70

R. A. Lewin. The cell sap of *Prochloron* (Prochlorophyta) 71–76

A. Athanasiadis and I. Tittley. Antithamnioid algae (Rhodophyta, Ceramiaceae) newly recorded from the Azores 77–80

J. M. Huisman and E. M. Gordon-Mills. A proposal to resurrect the tribe Monosporeae Schmitz et Hauptfleisch, with a description of *Tanakaella itonoi* sp. nov. (Ceramiaceae, Rhodophyta) from southern and western Australia 81–90

C. M. Pueschel. Protein crystals in *Haplogloia kuckuckii* (Chordariales, Phaeophyceae): another mechanism for nitrogen storage in brown algae? 91–96

D. M. Jacobson and R. A. Andersen. The discovery of mixotrophy in photosynthetic species of *Dinophysis* (Dinophyceae): light and electron microscopical observations of food vacuoles in *Dinophysis acuminata, D. norvegica* and two heterotrophic dinophysoid dinoflagellates . . 97–110

Y. M. Chamberlain and D. W. Keats. Three melobesioid crustose coralline red algae from South Africa: *Leptophytum acervatum* (Foslie) comb. nov., *L. foveatum* sp. nov. and *L. ferox* (Foslie) comb. nov. 111–133

C. J. Bird, P. A. Sosa and R. M. MacKay. Molecular evidence confirms the relationship of *Petrocelis* in the western Atlantic to *Mastocarpus stellatus* (Rhodophyta, Petrocelidaceae) (Research Note) 134–137

Book review 138–139

Book notice 140

Announcement 140

Published 22 February 1994

VOLUME 33, NUMBER 3, MAY 1994

Y. M. Chamberlain. *Pneophyllum coronatum* (Rosanoff) D. Penrose comb. nov., *P. keatsii* sp. nov., *Spongites discoideus* (Foslie) D. Penrose et Woelkerling and *S. impar* (Foslie) Y. Chamberlain comb. nov. (Rhodophyta, Corallinaceae) from South Africa 141–157

S. (Malis) Arad, R. Kolani, B. Simon-Berkovitch and A. Sivan. Inhibition by DCB of cell wall polysaccharide formation in the red microalga *Porphyridium* sp. (Rhodophyta) . . . 158–162

M. Yamaguchi and I. Imai. A microfluorometric analysis of nuclear DNA at different stages in the life history of *Chattonella antiqua* and *Chattonella marina* (Raphidophyceae) . . . 163–170

U. Karsten, K. Kück, C. Daniel, C. Wiencke and G. O. Kirst. A method for complete determination of dimethylsulphoniopropionate (DMSP) in marine macroalgae from different geographical regions 171–176

R. A. Townsend, Y. M. Chamberlain and D. W. Keats. *Heydrichia woelkerlingii* gen. et sp. nov., a newly discovered non-geniculate red alga (Corallinales, Rhodophyta) from Cape Province, South Africa 177–186

D. Wilson Freshwater and J. Rueness. Phylogenetic relationships of some European *Gelidium* (Gelidiales, Rhodophyta) species, based on *rbc*L nucleotide sequence analysis . . . 187–194

M. Sansón and J. Reyes. Sexual plants of *Diplothamnion jolyi* (Ceramiaceae, Rhodophyta) from the Canary Islands 195–198

L. K. Medlin, M. Lange and M. E. M. Baumann. Genetic differentiation among three colony-forming species of *Phaeocystis*: further evidence for the phylogeny of the Prymnesiophyta 199–212

G. C. Zuccarello and J. A. West. Genus and race specificity in the red algal parasite *Leachiella pacifica* (Choreocolacaceae, Rhodophyta) 213–218

In Memoriam 219–224

Book notices 225

Society news 226

Announcements 227–229

Published 17 May 1994

VOLUME 33, NUMBER 4, JULY 1994

Nilda E. Aponte, David L. Ballantine and James N. Norris. Culture studies on the morphology and life history of *Aglaothamnion herveyi* (Howe) comb. nov., with notes on *A. felipponei* (Howe) comb. nov. (Ceramiaceae, Rhodophyta) 231–238

H. Nozaki, K. Aizawa and M. M. Watanabe. A taxonomic study of four species of *Carteria* (Volvocales, Chlorophyta) with cruciate anterior papillae, based on cultured material . . 239–247

G. R. Hasle, L. K. Medlin and E. E. Syvertsen. *Synedropsis* gen. nov., a genus of araphid diatoms associated with sea ice 248–270

A. da Costa Braga and Y. Yoneshigue-Valentin. Growth of *Laminaria abyssalis* (Phaeophyta) at different nitrate concentrations 271–274

S. Meksumpun, S. Montani and M. Uematsu. Elemental components of cyst walls of three marine phytoflagellates, *Chattonella antiqua* (Raphidophyceae), *Alexandrium catenella* and *Scrippsiella trochoidea* (Dinophyceae) 275–280

P. Leukart. Field and laboratory studies on depth dependence, seasonality and light requirement of growth in three species of crustose coralline algae (Corallinales, Rhodophyta) . . . 281–290

Y. M. Chamberlain and R. E. Norris. *Hydrolithon pellire* sp. nov., a mastophoroid crustose coralline red algal epiphyte from South Africa 291–297

K. Suzuki, S. Kawano and T. Kuroiwa. Single mitochondrion in acidic hot-spring alga: behaviour of mitochondria in *Cyanidium caldarium* and *Galdieria sulphuraria* (Rhodophyta, Cyanidiophyceae) (Research Note) 298–300

In memoriam 301–303

In memoriam 304–307

Book reviews 308–310

Published 19 July 1994

VOLUME 33, NUMBER 5, SEPTEMBER 1994

M. Birkhead and R. N. Pienaar. The flagellar apparatus of *Prymnesium nemamethecum* (Prymnesiophyceae) 311–323

E. Paasche and S. Brubak. Enhanced calcification in the coccolithophorid *Emiliania huxleyi* (Haptophyceae) under phosphorus limitation 324–330

A. S. Harvey, Wm J. Woelkerling and K. M. Wilks. The genus *Synarthrophyton* (Corallinaceae, Rhodophyta) in southern Australia 331–342

M. Kajimura. *Dudresnaya kuroshioensis* sp. nov. (Dumontiaceae, Rhodophyta) from Japan . . 343–350

Ken-ichiro Ishida and Yoshiaki Hara. Taxonomic studies on the Chlorarachniophyta. I. *Chlorarachnion globosum* sp. nov. 351–358

Karin A. F. Zonneveld and Barrie Dale. The cyst–motile stage relationships of *Protoperidinium monospinum* (Paulsen) Zonneveld et Dale comb. nov. and *Gonyaulax verior* (Dinophyta, Dinophyceae) from the Oslo Fjord (Norway) 359–368

D. D. Leipe, P. O. Wainright, J. H. Gunderson, D. Porter, D. J. Patterson, F. Valois, S. Himmerich and M. L. Sogin. The stramenopiles from a molecular perspective: 16S-like rRNA sequences from *Labyrinthuloides minuta* and *Cafeteria roenbergensis* 369–377

Maria Gibson. Reproduction in *Cladostephus spongiosus* in southern Australia (Sphacelariales, Phaeophyceae) 378–383

K. W. Nam, C. A. Maggs and D. J. Garbary. Resurrection of the genus *Osmundea* with an emendation of the generic delineation of *Laurencia* (Ceramiales, Rhodophyta) . . . 384–395

Book review 396

Published 15 September 1994

VOLUME 33, NUMBER 6, NOVEMBER 1994

K. W. Nam and C. H. Sohn. *Laurencia kangjaewonii* sp. nov. (Ceramiales, Rhodophyta) from Korea 397–403

R. G. Sheath, M. L. Vis and K. M. Cole. Distribution and systematics of *Batrachospermum* (Batrachospermales, Rhodophyta) in North America. 5. Section *Aristata* 404–414

J. A. Phillips and M. N. Clayton. Flagellate spores in *Homoeostrichus olsenii* Womersley (Dictyotales, Phaeophyceae): the largest known motile reproductive cells of marine macroalgae . 415–419

Brian R. Oates and Kathleen M. Cole. Comparative studies on hair cells of two agarophyte red algae, *Gelidium vagum* (Gelidiales, Rhodophyta) and *Gracilaria pacifica* (Gracilariales, Rhodophyta) 420–433

R. E. Norris. Some cumophytic Rhodomelaceae (Rhodophyta) occurring in Hawaiian surf . . 434–443

Aa. Kristiansen, P. M. Pedersen and L. Moseholm. Salinity-temperature effects on growth and reproduction of *Scytosiphon lomentaria* (Fucophyceae) along the salinity gradient in Danish waters 444–454

J. Zhou and L. Fritz. Okadaic acid antibody localizes to chloroplasts in the DSP-toxin-producing dinoflagellates *Prorocentrum lima* and *Prorocentrum maculosum* 455–461

S. Fredriksen, M. D. Guiry and J. Rueness. Morphological and biosystematic studies of *Gelidium pusillum* and *G. pulchellum* (Gelidiaceae, Rhodophyta) from Europe 462–470

D. G. Müller and E. Parodi. *Asteronema rhodochortonoides* nov. comb. (Ectocarpales, Phaeophyceae)—a newly recognized taxon with stellate chloroplast arrangement (Research Note) . . 471–474

Nina Lundholm, Jette Skov, Roger Pocklington and Øjvind Moestrup. Domoic acid, the toxic amino acid responsible for amnesic shellfish poisoning, now in *Pseudonitzschia seriata* (Bacillariophyceae) in Europe (Research Note) 475–478
